

***Covet Fashion* Phases 1 and 2: Vocabulary and Concept Acquisition**

Instructions: We are beginning our unit on clothing and fashion! Please complete the steps below to get started.

1. **Getting started:** Download *Covet Fashion* (iOS and Android) and complete the onboarding process. Notice what words/phrases seem most important in this game. Jot them down.
2. **Phase 1:** Complete a Limited Time Challenge. Answer the questions below as you complete it.

- a. Look at the photo. What clothing items will you likely need to use?

- b. Read the description of the challenge. Indicate important words and descriptors and what you think they mean by filling out the chart below.

Descriptor/Context	Meaning/Drawing
<i>Example: Style an old-fashioned, sophisticated look to buy an estate...</i>	<i>Traditional and fancy</i>

c. Style your look (one with outfit requirements-anything but the Daily Challenge). Note the words from the outfit requirements. What other key terms can you figure out?

d. Work with a partner who completed a distinct Limited Time Challenge and create a semantic map of the terminology you discovered.

3. **Phase 2:** Vote on a challenge. Work with a partner to pick your favorite outfit and predict if it will have a high score. Document your ideas and if your choices seem to align with other Coveters here.

Outfit	High/Low Score	Correct?	Notes
<i>Example Response</i>	<i>High</i>	<i>No</i>	<i>Surprises me. Beautiful outfit.</i>
