

What is that Sound?

While you listen to the audio or video clip you chose, read along with the transcript. You can listen more than once.

As you listen:

- Write down 5 or more words that have sounds that seem hard to pronounce, or that are pronounced very differently than in another language that you speak.

After listening:

- Guess the specific part of the word that has that sound and write it down.
- Rewrite the sound in a way that describes how it sounds to you. You can use phonetic spelling, give a description of how to say it, etc.

Word	Sound (which part of the word?)	How do you say the sound?
