

Affinity Space Brainstorm!

Finding digital communities based on your own interests or hobbies.

What interest or hobby do you want to communicate about? Write it here.

Which digital spaces or platforms can you use to communicate about your interest? List as many as you can. Don't know any? Work with a partner to find some!

Choose one space or platform from your list above to explore.

Why did you pick it?

What do you observe in the space that helps you understand how to interact? Pay attention to words used, use of images (e.g., emoji or gifs), and anything interesting about language (e.g., how direct people are with one another).

How can you participate starting today? How do you wish to participate in the future?
