The Department of International Studies offers bachelor of arts (BA), bachelor of science (BS), and master of arts (MA) degrees. The program is tailored to give students the theoretical tools to make sense of the fast-changing global arena; ensure the practical application of their research; immerse them in the language, history, and culture of a major world region; ensure they live, study, conduct research, or hold an internship in their region of interest; and help them develop a professional concentration area suitable for their career goals. Professional concentration options are listed below.

The Department of International Studies is a member of the Association of Professional Schools of International Affairs and the International Studies Association. These links provide more opportunities in research, internships, funding, and employment for international studies students.

Undergraduate Studies

The bachelor's degree offers students a rigorous education in the basic elements of the field. The program provides a sound general education for the student interested in the complex interrelationships (political, economic, social, and cultural) that exist among nations in the interdependent modern world.

Advising

The role of the faculty advisor as mentor is central to the program. Students interested in applying to the program should choose a faculty member with whom they have a common area of interest to act as their advisor and mentor, typically one of the core or participating faculty members named above or a faculty member from the student's concentration areas. Advising about specific major requirements is available from the department's undergraduate advisors.

Admission

Students who want to major in international studies must have completed at least two terms at the University of Oregon and should have attained at least a 3.00 grade point average (GPA). In addition, students must have taken and passed (with a C– or better) at least one regular international studies (INTL) course. Freshman seminars do not count toward this requirement.Students are strongly encouraged not to wait until their junior or senior year to apply. Premajor advising and help with application procedures are available at the international studies office. Applicants must meet with an international studies undergraduate advisor to review the application before submitting it for consideration. Applications are due on Monday of the fourth week of fall, winter, and spring terms.

In exceptional cases, students entering the university may apply to become an international studies major without completing the required two quarters. More information is available from an international studies undergraduate advisor.

Second-Language Acquisition and Teaching

Students must complete the requirements of the certificate in second-language acquisition and teaching o fulfill this concentration. Students may choose their language specialization from the following target languages: Chinese, English, French, German, Japanese, Korean, Russian, or Spanish. For more information, including requirements and courses, please contact an international studies undergraduate advisor and visit slat.uoregon.edu .

Required and Elective Courses	
Students must contact an international studies undergraduate advisor for options in their linguistic areas	

Additional Requirements

Courses must be passed with grades of C– or better to satisfy major requirements. In addition, three years' proficiency in a second language is required. To encourage the study of less commonly taught languages, students also may fulfill the language requirement with the "two-plus-two" option: two years' proficiency in a commonly taught language (i.e., French, German, Italian, or Spanish) and two years' proficiency in any other language.

Courses applied to the major, with the exception of the language requirement and up to 8 credits in Field Studies: [Topic] (INTL406) or Practicum: [Topic] (INTL409), must be taken for letter grades.

A maximum of 12 credits in courses taken to fulfill the university group requirements may be applied toward the international studies major.

A maximum of 20 credits in courses taken in a single department other than international studies may be applied toward the international studies major, exclusive of the language requirement.

For the most current information about courses and requirements, visit the department website.

Language Requirement

To satisfy this requirement, students must achieve proficiency in a second language at a level associated with three years of study. Proficiency in the language may be demonstrated by passing three terms of a 300-level language sequence with grades of mid-C or better, or by an examination.

A student may also fulfill the language requirement with two years' proficiency in two different languages (exclusive of the student's native tongue) if at least one of the two is a less commonly taught language (i.e., not French, German, Italian, or Spanish). Students wishing to pursue this option must get approval from the undergraduate studies faculty director.

International Experience

Majors must have a significant international experience to complete requirements for the major. This is usually satisfied by at least one term (ten weeks) of study or work in another country that coincides with their geographical focus area. For information about study abroad, see Study Abroad in the **Supplementary Academic Programming** section of this catalog. Advice is available from the Office of International Affairs, 330 Oregon Hall.

Internship Option

Students may earn pass/no pass (P/N) credit for work done as interns. Interested students should consult with international studies advisors.

Second-Language Acquisition and Teaching

Students must complete the requirements of the certificate in second-language acquisition and teaching o fulfill this concentration. Students may choose their language specialization from the following target languages: Chinese, English, French, German, Japanese, Korean, Russian, or Spanish. For more information, including requirements and courses, please contact an international studies undergraduate advisor and visit slat.uoregon.edu .

Required and Elective Courses	
Students must contact an international studies undergraduate advisor for options in their linguistic areas	

Additional Requirements

Courses must be passed with grades of C– or better to satisfy major requirements. In addition, three years' proficiency in a second language is required. To encourage the study of less commonly taught languages, students also may fulfill the language requirement with the "two-plus-two" option: two years' proficiency in a commonly taught language (i.e., French, German, Italian, or Spanish) and two years' proficiency in any other language.

Courses applied to the major, with the exception of the language requirement and up to 8 credits in Field Studies: [Topic] (INTL406) or Practicum: [Topic] (INTL409), must be taken for letter grades.

A maximum of 12 credits in courses taken to fulfill the university group requirements may be applied toward the international studies major.

A maximum of 20 credits in courses taken in a single department other than international studies may be applied toward the international studies major, exclusive of the language requirement.

For the most current information about courses and requirements, visit the department website.

Language Requirement

To satisfy this requirement, students must achieve proficiency in a second language at a level associated with three years of study. Proficiency in the language may be demonstrated by passing three terms of a 300-level language sequence with grades of mid-C or better, or by an examination.

A student may also fulfill the language requirement with two years' proficiency in two different languages (exclusive of the student's native tongue) if at least one of the two is a less commonly taught language (i.e., not French, German, Italian, or Spanish). Students wishing to pursue this option must get approval from the undergraduate studies faculty director.

International Experience

Majors must have a significant international experience to complete requirements for the major. This is usually satisfied by at least one term (ten weeks) of study or work in another country that coincides with their geographical focus area. For information about study abroad, see Study Abroad in the **Supplementary Academic Programming** section of this catalog. Advice is available from the Office of International Affairs, 330 Oregon Hall.

Internship Option

Students may earn pass/no pass (P/N) credit for work done as interns. Interested students should consult with international studies advisors.

International Studies Honors Thesis

Students who have a grade point average (GPA) of 3.50 or higher and want to graduate with department honors write a thirty- to fifty-page thesis. An advisor must be selected and a proposal approved by the department faculty two terms before graduation. Students may apply as many as 4 credits in Thesis (403) to the appropriate block of the 48 credits required for the international studies major.

The completed thesis must be awarded a grade of mid-B or better by the advisor (P, or pass, for a Clark Honors College thesis) and be approved as meeting thesis guidelines by the department head. This includes addressing an international or cross-cultural topic and using a minimum of two second-language sources for all projects, including the honors college thesis.

- **Master of Arts**

Graduate Studies

The interdisciplinary MA degree in international studies is offered for students who contemplate careers in international affairs, international development, diplomacy, international organizations, or domestic

organizations with an international focus. A minimum of 73 credits must be completed for the degree.

The degree program can be tailored to meet the unique professional needs of each student. In close consultation with a faculty advisor, the student develops a program that combines expertise in a specific professional area with interdisciplinary training in international studies.

Concentrations

In consultation with their faculty advisor, students identify a professional concentration. Suggested areas include the following:

- comparative development
- cross-cultural training
- cultural arts
- environment
- food and food systems
- gender and development
- health
- international community development
- international education
- international tourism
- migration
- nonprofit management
- public policy and planning
- sustainable development

Concentrations in other professional areas can be arranged.

Graduates of the Department of International Studies serve as international technical advisors, career diplomats, community development professionals, international business and trade experts, analysts in developing countries, international educators, administrators of international programs, and cross-cultural communication consultants.

Admission

The applicant must be a graduate of an accredited four-year college or university with a grade point average (GPA) of 3.30 or better in all academic work. The application deadline is January 15 for the following fall term. A Graduate Record Examinations (GRE) score is required. Students whose native language is not English must verify a score of 575 (paper-based test) or 90 (Internet-based test) or better on the Test of English as a Foreign Language (TOEFL) unless they have earned a bachelor's degree from a college or university in an English-speaking country such as Australia, Canada (excluding Quebec), Ireland, New Zealand, or the United Kingdom. A score of 7.0 or better on the overall band of the International English Language Testing System test may be submitted instead of the TOEFL. Additional information about the graduate program may be obtained from the Department of International Studies website.The application process is online.

International Students

International students are encouraged to apply. Study programs are designed to meet students' professional needs and those of their home countries. As many as half the program's graduate students are international students.

Concentration area courses from relevant departments or professional schools [2]		24
Geographic Focus		
Courses in geographic focus area [3]		12
Supervised Field Internship or Field Research		
Internship or research experience related to student's career plans		12
Master of Arts Project		
Thesis or policy paper/published article		6-9
Total Credits		**73-76**

1. Students may select from a range of courses to satisfy this requirement. A minimum of one course must be taken from each competence area, and three of the four courses must be INTL courses.
2. Concentration areas are tailored to individual student interests. Students interested in agricultural extension, forestry, and public health may take courses at Oregon State University. (For information about concurrent enrollment, see the **Bachelor's Degree Requirements** section of this catalog.)
3. Geographic focus areas are Africa, East Asia, Europe, Latin America, the Middle East, South Asia, or Southeast Asia. Students who earned their undergraduate degrees from institutions outside the United States may substitute an additional 12 credits in the professional concentration for the 12 credits of geographic focus. Students are encouraged to choose a geographic focus outside their home region.

Additional Requirements

Students must take a minimum of 28 graded credits: 12 in the interdisciplinary core and 16 in the professional concentration area. A maximum of 24 credits may be taken in any department other than international studies in order to allow an appropriate degree of specialization.

Language Study and Competence

Students must demonstrate a third-year level of proficiency in a second language relevant to their professional or geographic focus before completing the program. The University of Oregon offers formal courses in a number of world languages. International students whose high school or university instruction was not in English demonstrate proficiency in English as a second language through completion of the master's degree requirements. It is recommended that international students study a language from their region of concentration.

Supervised Field Internship or Field Research

The program assists students in locating internships or research opportunities and securing funding. International students may do their internship or research in the United States. Students must pay all or most of the costs. Many graduate students in the program have competed successfully for funding to support internship and research experiences.

The international studies faculty expects students to gain the following from the internship or research experience:

1. a reasonably in-depth experience in a culture other than the student's own
2. greater fluency in the language of the culture in which the internship or research takes place
3. knowledge and experience useful to the career goals of the intern

Master of Arts Project

Each student must prepare an MA project, usually in the form of a thesis or a policy paper. Students are required to present a thesis proposal defense, and at the conclusion of the project, present an oral defense before the student's final project committee. Other types of projects may be approved on a case-by-case basis by the student's master's advisor. Nine credits are awarded for a thesis and 6 credits for a policy paper.

Concurrent JD/MA Degree

A four-year program for students interested in international human rights, this program provides background in legal theory and instruments sensitive to social, cultural, economic, and political realities against which international human-rights law is implemented. Future lawyers concerned with asylum, immigration, or public-interest law benefit from the study of international relations and cross-cultural communication.
