The Department of Global Studies (formerly the Department of International Studies) offers bachelor of arts (BA), bachelor of science (BS), and master of arts (MA) degrees in international studies and minors in international studies and global health. The program is tailored to give students the theoretical tools to make sense of the fast-changing global arena; ensure the practical application of their research; immerse them in the language, history, and culture of a major world region; ensure they live, study, conduct research, or hold an internship that enhances their intercultural knowledge, understanding, and skills; and help them develop a professional concentration area suitable for their career goals. Professional concentration and geographic focus options are listed in the Undergraduate section of the department page.

The Department of Global Studies is a member of the Association of Professional Schools of International Affairs and the International Studies Association. These associations provide more opportunities in research, internships, funding, and employment for international studies students.

Undergraduate Studies

The bachelor's degree offers students a rigorous education in the basic elements of the field. The program provides a sound general education for the student interested in the complex interrelationships (political, economic, environmental, social, and cultural) that exist among nations in the interdependent modern world.

Advising

Advising about specific major requirements is provided by the department's undergraduate advising office. Regular consultation with this office is strongly advised for majors, premajors, and minors. The role of the faculty advisor as mentor is central to the program. Students applying to the major are also required to choose a faculty member with whom they have a common area of interest to act as their advisor and mentor, typically one of the core or participating faculty members named in the departmental faculty list or a faculty member from the student's concentration areas, professional or geographic.

Admission

The first step for students planning to major in international studies is to declare the premajor. International studies premajors must first complete the requirements listed below before they can apply to the international studies major.

Code	Title	Credits
INTL 101	Introduction to International Issues	4
Select two of the following:		
INTL 199	Special Studies: [Topic] (Globalization and the Global Economy)	
INTL 240	Perspectives on International Development	
INTL 250	Value Systems in Cross-Cultural Perspective	
INTL 260	Culture, Capitalism, and Globalization	
INTL 280	Global Environmental Issues and Alternatives	
Second-language sequence or equivalency demonstrated		
WR 121	College Composition I	4
WR 122	College Composition II (WR 123 strongly recommended)	4
or WR 123	College Composition III	

Students must maintain a grade point average of 3.00 (cumulative) or higher than 3.00 for three consecutive terms prior to the term of application.

Courses required for the premajor must be passed with a C– or better. Freshman seminars do not count toward this requirement. Students are strongly encouraged not to wait until their junior or senior year to apply. Premajor advising and help with application procedures are available at the international studies undergraduate advising office. Applicants must meet with an international studies undergraduate advisor to review the application before submitting it for consideration. Applications are due on Monday of the fourth week of fall, winter, and spring terms.

In exceptional cases (and to accommodate transfer students), students entering the university may apply to become an international studies

major without completing the required two terms. More information is available from the director of undergraduate studies.

Bachelor of Arts Degree Requirements

Code	Title	Credits
Preparatory Course		
INTL 101	Introduction to International Issues [1]	4
Block A: International Core Foundation		
Select four of the following: [2]		16
INTL 199	Special Studies: [Topic] (Globalization and the Global Economy)	
INTL 240	Perspectives on International Development	
INTL 250	Value Systems in Cross-Cultural Perspective	
INTL 260	Culture, Capitalism, and Globalization	
INTL 280	Global Environmental Issues and Alternatives	
Block B: Professional Concentration Area		
Four upper-division courses in one area of concentration (see professional concentration areas list and tables) [3]		16
Block C: Geographic Focus		
Four upper-division courses on one cultural area (a group of nations that share common cultural, historical, geographic, and/or linguistic experiences); at least one of the four must have the INTL subject code [4]		16
Total Credits		52

1. Should be taken before international core foundation courses. Must be taken prior to applying to the major.
2. INTL courses at the 300- and 400-level may be used to fulfill this requirement if it is not already being used toward completion of a student's Block B or C requirements. More information is available from an international studies advisor.
3. Students may design their own professional concentration area if none of the predefined areas fits the student's professional goals. Students who choose this option must designate one of the core faculty members of the Department of International Studies as an advisor and work with that individual in designing the concentration.
4. As many as 4 credits in a third-year language sequence may be used to fulfill the geographic focus requirement. Appropriate courses should have significant course content on the region of study. Areas of focus may include Africa, Europe, Latin America and the Caribbean, the Middle East, North America, South and Central Asia, and East and Southeast Asia. A North American geographic focus is only open to international students.

Second-Language Acquisition and Teaching

Students must complete the requirements of the certificate in second-language acquisition and teaching to fulfill this concentration. Students may choose their language specialization from the following target languages: Chinese, English, French, German, Japanese, Korean, Russian, or Spanish. For more information, including requirements and courses, please contact an international studies undergraduate advisor and visit slat.uoregon.edu.

Code	Title	Credits
Required and Elective Courses		
Students must contact an international studies undergraduate advisor for options in their linguistic areas		

Additional Requirements

Courses must be passed with grades of C– or better to satisfy major requirements. In addition, three years' proficiency in a second language is required (see below for details).

Courses applied to the major, with the exception of the language requirement and up to 8 credits in Field Studies: [Topic] (INTL 406) or Practicum: [Topic] (INTL 409), must be taken for letter grades.

A maximum of 12 credits in courses taken to fulfill the university group requirements may be applied toward the international studies major.

A maximum of 20 credits in courses taken in a single department other than international studies may be applied toward the international studies major, exclusive of the language requirement.

For the most current information about courses and requirements, visit the department website.

Language Requirement

To satisfy this requirement, students must achieve proficiency in a second language at a level associated with three years of study. Proficiency in the language may be demonstrated by passing three terms of a 300-level language sequence with grades of mid-C or better, by an examination, or by graduating from a high school in which English was not the medium of instruction.

A student may also fulfill the language requirement with two years' proficiency in two different languages exclusive of the student's native language. Students wishing to pursue this option must get approval from the director of undergraduate studies faculty.

Intercultural Experience

Majors must have a significant intercultural experience to complete requirements for the major. This can be satisfied by at least one term (ten weeks) of study or work in another country that coincides with their geographical focus area. Contact the departmental advising office for information about other ways to satisfy this requirement. For information about study in another country, see Study Abroad in the **Supplementary Academic Programming** section of this catalog. Advice is available from the Office of International Affairs, 330 Oregon Hall. *Domestic (US-*

based) cultural experiences and internships must be preapproved by the advising team.

Internship Option

Students may earn pass/no pass (P/N) credit for work done as interns. Interested students should consult with international studies advisors.

Bachelor of Science Degree Requirements

Code	Title	Credits
Preparatory Course		
INTL 101	Introduction to International Issues [1]	4
Block A: International Core Foundation		
Select four of the following: [2]		16
INTL 199	Special Studies: [Topic] (Globalization and the Global Economy)	
INTL 240	Perspectives on International Development	
INTL 250	Value Systems in Cross-Cultural Perspective	
INTL 260	Culture, Capitalism, and Globalization	
INTL 280	Global Environmental Issues and Alternatives	
Block B: Professional Concentration Area		
Four upper-division courses in one area of concentration (see professional concentration areas list and tables) [3]		16
Block C: Geographic Focus		
Four upper-division courses on one cultural area (a group of nations that share common cultural, historical, geographic, and/or linguistic experiences); at least one of the four must have the INTL subject code [4]		16
Total Credits		52

1. Should be taken before international core foundation courses. Must be taken prior to applying to the major.
2. INTL courses at the 300- and 400-level may be used to fulfill this requirement if it is not already being used toward completion of a student's Block B or C requirements. More information is available from an international studies advisor.
3. Students may design their own professional concentration area if none of the predefined areas fits the student's professional goals. Students who choose this option must designate one of the core faculty members of the Department of International Studies as an advisor and work with that individual in designing the concentration.
4. As many as 4 credits in a third-year language sequence may be used to fulfill the geographic focus requirement. Appropriate courses should have significant course content on the region of study. Areas of focus may include Africa, Europe, Latin America and the Caribbean, the Middle East, North America, South and Central Asia, and East and Southeast Asia. A North American geographic focus is only open to international students.

Second-Language Acquisition and Teaching

Students must complete the requirements of the certificate in second-language acquisition and teaching to fulfill this concentration. Students may choose their language specialization from the following target languages: Chinese, English, French, German, Japanese, Korean, Russian, or Spanish. For more information, including requirements and courses, please contact an international studies undergraduate advisor and visit slat.uoregon.edu.

Code	Title	Credits
Required and Elective Courses		
Students must contact an international studies undergraduate advisor for options in their linguistic areas		

Additional Requirements

Courses must be passed with grades of C– or better to satisfy major requirements. In addition, three years' proficiency in a second language is required (see below).

Courses applied to the major, with the exception of the language requirement and up to 8 credits in Field Studies: [Topic] (INTL 406) or Practicum: [Topic] (INTL 409), must be taken for letter grades.

A maximum of 12 credits in courses taken to fulfill the university group requirements may be applied toward the international studies major.

A maximum of 20 credits in courses taken in a single department other than international studies may be applied toward the international studies major, exclusive of the language requirement.

For the most current information about courses and requirements, visit the department website.

Language Requirement

To satisfy this requirement, students must achieve proficiency in a second language at a level associated with three years of study. Proficiency in the language may be demonstrated by passing three terms of a 300-level language sequence with grades of mid-C or better, by an examination, or by graduating from a high school in which English was not the medium of instruction.

A student may also fulfill the language requirement with two years' proficiency in two different languages exclusive of the student's native language. Students wishing to pursue this option must get approval from the director of undergraduate studies.

Intercultural Experience

Majors must have a significant intercultural experience to complete requirements for the major. This can be satisfied by at least one term (ten weeks) of study or work in another country that coincides with their geographical focus area. Contact the departmental advising office for information about other ways to satisfy this requirement. For information about study in another country, see Study Abroad in the **Supplementary Academic Programming** section of this catalog. Advice is available from the Office of International Affairs, 330 Oregon Hall. *Domestic (US-*

based) cultural experiences and internships must be preapproved by the advising team.

Internship Option

Students may earn pass/no pass (P/N) credit for work done as interns. Interested students should consult with international studies advisors.

International Studies Honors Thesis

Students who have a grade point average (GPA) of 3.50 or higher and want to graduate with department honors write a 30- to 50-page thesis. A faculty mentor must be selected and a proposal must be approved by the director of undergraduate studies at least two terms before graduation. Students may apply as many as 4 credits in Thesis (403) to the appropriate block of the 48 credits required for the international studies major.

The completed thesis must be awarded a grade of mid-B or better by the advisor (P, or pass, for a Clark Honors College thesis) and be approved as meeting thesis guidelines by the department head. This includes addressing a global or cross-cultural topic and using a minimum of two non-English-language sources for all projects, including the honors college thesis.

Minor in Global Health

The College of Arts and Sciences administers an undergraduate minor in global health, overseen by the global health program director and a faculty advisory committee.

To earn a minor, students must complete a total of 24 graded credits from approved courses, at least 12 of which must be at the upper-division level, as well as a 400-level field experience or internship, to be arranged in consultation with a faculty advisor from an affiliated program.

The courses that satisfy the minor are distributed as follows: two core courses and four elective courses. Core and elective courses applied to the minor must be taken for letter grades and passed with grades of C– or better.

Students seeking to qualify for a minor should, as early as possible, consult the global health program director as well as academic advisors. Developing the plan for elective courses with the advisors' help ensures that the courses selected satisfy the minor requirements and may be completed in a timely fashion.

No later than two terms before graduation, the student must notify the undergraduate advisors of intent to graduate for verification of the global health minor course work and transcript evaluation. The student must also indicate the global health minor on the application for graduation. Students must complete major requirements for an undergraduate degree in another department or school of the university.

No more than three courses may count for both the global health minor and the student's major field of study. Twenty credits toward the minor and all upper-division courses must be taken in residence at the University of Oregon. Course work within the minor, including the field experience or internship, must be taken for a letter grade and passed with a grace of C– or better.

Majors in international studies are strongly encouraged to complete a minor in the UO program correlating with their geographic focus. Available programs include African studies, Asian studies, European studies, Latin American studies, Middle East–North Africa Studies, and Russian, East European, and Eurasian Studies.

Minor in International Studies

The international studies minor provides students with the opportunity to add a global perspective to any major, in addition to providing a solid grounding in intercultural communication and the foundations of global citizenship. Students are able to tailor course work to their own professional and personal objectives, so the minor is a suitable complement to a BA or BS degree in any school or department.

International studies minors must complete 24 international studies (subject code INTL) course credits, 12 of which must be upper division, with a grade of C– or better or P. Course selection is up to the individual student, but for advising purposes tracks are suggested for students coming from different majors, tracks that can especially complement particular career goals. Student may elect up to 12 lower-division credits, which share a common purpose of fostering critical and cross-cultural thinking as well as encouraging students to seek out and understand diverse perspectives and ways of approaching and communicating about current global issues. The 12 required upper-division credits allow a deeper investigation of issues, regions, and cultures and also hone skills in research, effective writing, and oral presentation to address rapidly changing and complex current and future issues.

Sample Schedule

- Introduction to International Issues (INTL 101)
- Special Studies: [Topic] (INTL 199) (Globalization and the Global Economy)
- Perspectives on International Development (INTL 240)
- Seminar: [Topic] (INTL 407) (Corruption and Development)
- Cross-Cultural Communication (INTL 431)
- Development and Social Change in Latin America (INTL 446)

Four-Year Degree Plan

The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.

Bachelor of Arts in International Studies

Below is an example of how to complete a BA in international studies with a diplomacy and international relations professional concentration and a Middle East geographic focus. Since the major offers 16 options for professional concentration areas and seven different geographic focus regions, with a wide variety of courses that can count toward each concentration, there are innumerable paths through the international studies major.

This degree plan is for general planning purposes only and, due to the interdisciplinary nature of the major, it is imperative that students speak with advisors to determine which courses would best match their personal, professional, and academic goals.

- **Master of Arts**

Graduate Studies

The interdisciplinary MA degree in international studies is offered for students who contemplate careers in international affairs, international development, diplomacy, international organizations, or domestic organizations with an international focus. A minimum of 73 credits must be completed for the degree.

The degree program can be tailored to meet the unique professional needs of each student. In close consultation with a faculty advisor, the student develops a program that combines expertise in a specific professional area with interdisciplinary training in international studies.

Concentrations

In consultation with their faculty advisor, students identify a professional concentration. Suggested areas include the following:

- comparative development
- cross-cultural training
- cultural arts
- environment
- food and food systems
- gender and development
- health
- international community development
- international education
- international tourism
- journalism
- migration
- nonprofit management
- public policy and planning

Concentrations in other professional areas can be arranged.

Graduates of the Department of International Studies serve as international technical advisors, career diplomats, community development professionals, international business and trade experts, analysts in developing countries, international educators, administrators of international programs, and cross-cultural communication consultants.

Admission

The applicant must be a graduate of an accredited four-year college or university with a grade point average (GPA) of 3.30 or better in all academic work. The application deadline is January 5 for the following fall term. A Graduate Record Examinations (GRE) score is required. Students whose native language is not English must verify a score of 575 (paper-based test) or 90 (Internet-based test) or better on the Test of English as a Foreign Language (TOEFL) unless they have earned a bachelor’s degree from a college or university in an English-speaking country such as Australia, Canada (excluding Quebec), Ireland, New Zealand, or the United Kingdom. A score of 7.0 or better on the overall band of the International English Language Testing System test may be submitted instead of the TOEFL. Additional information about the

graduate program may be obtained from the Department of International Studies website.The application process is online.

International Students

International students are encouraged to apply. Study programs are designed to meet students' professional needs and those of their home countries. As many as half the program's graduate students are international students.

1. Three of the four courses (12 credits) must have the INTL subject code.
2. Concentration areas are tailored to individual student interests. Students interested in agricultural extension, forestry, and public health may take courses at Oregon State University. (For information about concurrent enrollment, see the **Bachelor's Degree Requirements** section of this catalog.)
3. Geographic focus areas are Africa, East Asia, Europe, Latin America, the Middle East, South Asia, or Southeast Asia. Students who earned their undergraduate degrees from institutions outside the United States may substitute an additional 12 credits in the professional concentration for the 12 credits of geographic focus. Students are encouraged to choose a geographic focus outside their home region.

Additional Requirements

Students must take a minimum of 24 graded credits in the professional concentration area. A maximum of 24 credits may be taken in any department other than international studies in order to allow an appropriate degree of specialization.

Language Study and Competence

Students must demonstrate a third-year level of proficiency in a second language relevant to their professional or geographic focus before completing the program. The University of Oregon offers formal courses in a number of European and non-European languages. Students also may study languages through self-instruction at the Yamada Language Center. International students whose high school or university instruction was not in English demonstrate proficiency in English as a second language through completion of the master's degree requirements. It is recommended that international students study a language from their geographic focus.

Supervised Field Internship or Field Research

The program assists students in locating internships or research opportunities and securing funding. International students may do their internship or research in the United States. Students are responsible for obtaining funding for the costs or for otherwise paying the costs in their entirety. Many graduate students in the program have competed successfully for funding to support internship and research experiences.

The international studies faculty expects students to gain the following from the internship or research experience:

1. a reasonably in-depth experience in a culture other than the student's own
2. greater fluency in the language of the culture in which the internship or research takes place
3. knowledge and experience useful to the career goals of the intern

Master of Arts Project

Each student must prepare an MA project, usually in the form of a thesis or capstone project. Students are required to present a thesis or capstone proposal defense, and at the conclusion of the project, present an oral defense before the student's final project committee. Other types of projects may be approved on a case-by-case basis by the student's master's advisor. Nine credits are awarded for a thesis or capstone project.

Concurrent Doctor of Jurisprudence/Master of Arts Degree

A four-year program for students interested in international human rights, this program provides background in legal theory and instruments sensitive to social, cultural, economic, and political realities against which international human-rights law is implemented. Future lawyers concerned with asylum, immigration, or public-interest law benefit from the study of international relations and cross-cultural communication.
