Earth Sciences (BA/BS)

Students in the Department of Earth Sciences learn about the minerals, rocks, soils, and waters that make up the earth, and the processes that shape the earth from deep in its interior to the atmosphere. Earth science applies the basic sciences of physics, biology, chemistry, and mathematics to understanding processes that have shaped the earth and other planetary bodies. Earth scientists combine field investigations with laboratory experiments and theoretical studies to understand the physical, chemical and biological processes that govern the behavior and interactions of complex earth systems.

Earth science applications include natural hazards such as earthquakes, floods, landslides and volcanic eruptions that affect humans. Other subdisciplines investigate how humans alter the earth's environments, where we pollute rivers and ground water, cause rapid erosion, attempt to re-engineer rivers and shorelines, and alter the earth's atmosphere, oceans, and global climate. Earth science research also includes the study of the deep earth to understand processes that drive the motions of tectonic plates and generate the earth's magnetic field.

Environmental Geoscience Track

Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate proficiency with modern quantitative tools that are used in the Earth sciences.
- When confronted with real-world Earth science problems, develop and test hypotheses in a systematic way while stating caveats and assumptions.
- Recognize, describe, and quantify dynamic processes that operate on the Earths surface environments, as well as the interaction of humans with these environments. \

Geology Track

Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate proficiency with modern quantitative tools that are used in the Earth sciences.
- When confronted with real-world Earth science problems, develop and test hypotheses in a systematic way while stating caveats and assumptions.
- Use techniques from modern earth science disciplines to solve complex problems across a diversity of scales through time and space that require consistent geological reasoning.

Geophysics Track

Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate proficiency with modern quantitative tools that are used in the Earth Sciences.
- When confronted with real-world Earth science problems, develop and test hypotheses in a systematic way while stating caveats and assumptions.
- Develop a foundation in mathematics and physics that enables them to quantitatively describe key aspects of fundamental Earth processes.

Paleontology Track

Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate proficiency with modern quantitative tools that are used in the Earth sciences.
- When confronted with real-world Earth science problems, develop and test hypotheses in a systematic way while stating caveats and assumptions.
- Demonstrate proficiency with the tools and techniques necessary to recognize geological evidence and reconstruct geological history for biological processes that have driven the evolution of life, as preserved in fossils extracted from ancient rocks.

- Geology (p. 1)
- Geophysics (p. 2)
- Environmental Geoscience (p. 3)
- Paleontology (p. 4)

Earth Sciences Major - Geology Track

Undergraduate Research

As many as 4 credits of research can be counted toward electives in any of the tracks. To receive such credit, students must

- submit a short letter, approved by the faculty research advisor and addressed to the head undergraduate advisor in earth sciences, stating the nature of the research and asserting that there is faculty supervision
- submit a final written report to the faculty advisor describing the results of the research

Students may earn credit in this category by registering for any of the following:

Code	Title	Credits
ERTH 401	Research: [Topic]	1-21
ERTH 406	Field Studies: [Topic]	1-6
ERTH 408	Laboratory Projects: [Topic]	1-6

Students who complete an honors thesis may not apply this option toward elective credits.

Grade Options and Standards

Undergraduate majors must take for letter grades (the pass/no pass option is not acceptable) all the courses required in their degree program. Required courses must be completed with grades of C– or better. Exceptions for honors students are noted under Honors in Earth Sciences.

Honors in Earth Sciences

Application for graduation with honors in earth sciences must be made no later than spring term of the student's junior year. To be eligible for graduation with honors, a student must

- maintain a grade point average (GPA) of 3.50 or better in geological sciences courses or a 3.00 or better in all science courses
- submit and orally present an acceptable honors thesis written under the supervision of a department faculty member and evaluated by a committee consisting of three faculty members including the supervisor. The thesis should be presented no later than three weeks before final examinations during the term the student plans to graduate

Honors students may register for 3 credits of Research: [Topic] (ERTH 401) the term before they intend to graduate, and 3 credits of Thesis (ERTH 403) the term of graduation. These credits may be applied toward electives.

Four-Year Degree Plan

The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.

Winter			
General-education, multicultural, or other group-satisfying courses		8	
Geology or other science elective		4	
	Credits	**12**	
Spring			
General-education, multicultural, or other group-satisfying courses		8	
Geology or other science elective		4	
	Credits	**12**	
	Total Credits	**36**	

Bachelor of Science in Earth Sciences: Environmental Geoscience Track

Course	Title	Credits	Milestones
First Year			
Fall			
ERTH 101 or ERTH 102	Exploring Planet Earth or Exploring Earth's Environment	4	
MATH 111Z	Precalculus I: Functions	4	
WR 121Z	Composition I	4	
CH 221 or CH 224H	General Chemistry I or Advanced General Chemistry I	4	
	Credits	**16**	
Winter			
ERTH 102 or ERTH 202	Exploring Earth's Environment or Earth's Surface and Environment	4	
MATH 112Z	Precalculus II: Trigonometry	4	
CH 222 or CH 225H	General Chemistry II or Advanced General Chemistry II	4	
General-education, multicultural, or other group-satisfying course		4	
	Credits	**16**	
Spring			
ERTH 103 or ERTH 203	Exploring Earth History or History of Life	4	
WR 122Z or WR 123	Composition II or College Composition III	4	
MATH 246 or MATH 251	Calculus for the Biological Sciences I or Calculus I	4	
General-education, multicultural, or other group-satisfying course		4	
	Credits	**16**	
	Total Credits	**48**	

Course	Title	Credits	Milestones
Second Year			
Fall			
PHYS 201 or PHYS 251	General Physics or Foundations of Physics I	4	
MATH 247 or MATH 252	Calculus for the Biological Sciences II or Calculus II	4	
ERTH 311	Earth Materials	5	
Geology elective		4	
	Credits	**17**	
Winter			
PHYS 202 or BI 211	General Physics or General Biology I: Cells	4	
ERTH 315	Earth Physics	4	
ERTH 332	Introduction to Petrology	5	
General-education, multicultural, or other group-satisfying course		4	
	Credits	**17**	
Spring			
PHYS 203 or PHYS 253 or BI 212 or BI 213 or CH 223 or CH 226H	General Physics or Foundations of Physics I or General Biology II: Organisms or General Biology III: Ecology and Evolution or General Chemistry III or Advanced General Chemistry III	4	
ERTH 311	Earth Materials	5	
ERTH 316	Introduction to Hydrogeology	4	
General-education, multicultural, or other group-satisfying course		4	
	Credits	**17**	
	Total Credits	**51**	

Course	Title	Credits	Milestones
Third Year			
Fall			
ERTH 310	Earth Resources and the Environment	4	
ERTH 318	Introduction to Field Methods	3	
General-education, multicultural, or other group-satisfying courses		8	
	Credits	**15**	
Winter			
ERTH 353	Geologic Hazards	4	
ERTH 451	Hydrogeology	4	
ERTH 418	Earth and Environmental Data Analysis	4	

General-education, multicultural, or other group-satisfying course		4
	Credits	**16**
Spring		
ERTH 334	Sedimentology and Stratigraphy	4
GEOG 323	Biogeography	4
General-education, multicultural, or other group-satisfying course		4
Geology elective		4
	Credits	**16**
	Total Credits	**47**

Course	Title	Credits	Milestones
Fourth Year			
Fall			
General-education, multicultural, or other group-satisfying courses		8	
Geology or other science elective		8	
	Credits	**16**	
Winter			
General-education, multicultural, or other group-satisfying courses		8	
Geology or other science elective		8	
	Credits	**16**	
Spring			
General-education, multicultural, or other group-satisfying courses		12	
Geology or other science elective		4	
	Credits	**16**	
	Total Credits	**48**	

Bachelor of Science in Earth Sciences: Paleontology Track

Course	Title	Credits	Milestones
First Year			
Fall			
ERTH 101 or ERTH 201	Exploring Planet Earth or Dynamic Planet Earth	4	
MATH 111Z	Precalculus I: Functions	4	
WR 121Z	Composition I	4	
CH 221 or CH 224H	General Chemistry I or Advanced General Chemistry I	4	
	Credits	**16**	
Winter			
ERTH 102 or ERTH 202	Exploring Earth's Environment or Earth's Surface and Environment	4	
MATH 112Z	Precalculus II: Trigonometry	4	
CH 222 or CH 225H	General Chemistry II or Advanced General Chemistry II	4	
General-education, multicultural, or other group-satisfying course		4	
	Credits	**16**	
Spring			
ERTH 103 or ERTH 203	Exploring Earth History or History of Life	4	
WR 122Z or WR 123	Composition II or College Composition III	4	
CH 223 or CH 226H	General Chemistry III or Advanced General Chemistry III	4	
MATH 251	Calculus I	4	
	Credits	**16**	
	Total Credits	**48**	

Course	Title	Credits	Milestones
Second Year			
Fall			
PHYS 201 or PHYS 251	General Physics or Foundations of Physics I	4	
BI 211	General Biology I: Cells	5	
MATH 252	Calculus II	4	
ERTH 331	Mineralogy	5	
	Credits	**18**	
Winter			
PHYS 202	General Physics	4	
ERTH 315	Earth Physics	4	
ERTH 332	Introduction to Petrology	5	
General-education, multicultural, or other group-satisfying course		4	
	Credits	**17**	
Spring			
PHYS 203	General Physics	4	
ERTH 318	Introduction to Field Methods	3	
General-education, multicultural, or other group-satisfying course		8	
	Credits	**15**	
	Total Credits	**50**	

Course	Title	Credits	Milestones
Third Year			
Fall			
Choose one from the following:		4	
ERTH 433	Paleobotany	4	
ERTH 434	Vertebrate Paleontology	4	
ERTH 435	Paleopedology	4	
General-education, multicultural, or other group-satisfying courses		4	
Geology or other science elective		4	

These courses are typically offered in alternate years, so enrollment is necessary in the third or fourth year according to availability.

Contact advisor or department office for scheduling of these courses.		
	Credits	**24**
Winter		
Choose one from the following:		4
ERTH 433	Paleobotany	4
ERTH 434	Vertebrate Paleontology	4
ERTH 435	Paleopedology	4
General-education, multicultural, or other group-satisfying courses		4
Geology or other science course		4
These courses are typically offered in alternate years, so enrollment is necessary in the third or fourth year according to availability.
