The Department of Interior Architecture provides a comprehensive professional design education within a unique interdisciplinary structure. By integrating subject-area coursework with studio design exploration, the program prepares students to act as independent problem-solvers and valuable design-team members.

Shared coursework with architecture in the early stages of the undergraduate or graduate curricula provides an interdisciplinary context for study and learning, leading to advanced courses and studies that explore theory, technology, and practice.

Central to the department is the design studio, where students gain experience with the design of interior spaces and elements and focus on the issues and conditions related to adapting existing sites and buildings. Topical intermediate studios concentrate on specific design issues, human factors, and building types. Specialized intermediate studios focus on the programming, design, and fabrication of furniture, and on construction documents that illustrate a small design project. A final independent two-term comprehensive project caps the design studio experience.

Faculty

Kyu-Ho Ahn, associate professor. See **Architecture**.

Virginia Cartwright, associate professor. See **Architecture**.

Solmaz Mohammadzadeh Kive, assistant professor. See **Architecture**.

Esther Hagenlocher, associate professor. See **Architecture**.

Linda K. Zimmer, associate professor. See **Architecture**.

Major - Bachelor's Degree
