

Physics (BA/BS)

Explore the laws of nature and the relationship between energy and matter with the Department of Physics. You will have the opportunity to research with award-winning faculty, participate in practical applications such as labs and demonstrations, and develop career skills through internships. We encourage physics majors to study across disciplines, pairing their work with chemistry, biology, or anything else of interest—at the University of Oregon, you have the freedom to choose your own path.

A degree in physics will give you a solid foundation to pursue careers and graduate studies in astrophysics, engineering, teaching, astronomy, medicine, technology, communication, and a host of other disciplines.

Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Have knowledge of principles and concepts for specific core subject areas listed above.
- Apply principles and concepts to analyze problems within specific core areas.
- Have capability with quantitative methods appropriate for the core areas.
- Analyze and interpret quantitative results.
- Have experience with integration of concepts: analysis of complex problems cutting across multiple core areas.
- Collect and appropriately analyze data working independently and in collaboration with others (experimentation; data collection, reduction and analysis; model-based computation including simulations and inversion of observations; and literature research using basic and state-of-the-art technology).
- Communicate orally and in writing by making appropriate use of current presentation technology.
- Have familiarity with current developments in physics.

Physics Major Requirements

Courses used to fulfill the major requirements must be taken for letter grade. [Coursework transferred in from Advanced Placement or International Baccalaureate exams are acceptable with a mark of P*.](#)

[Physics majors must keep an average Physics GPA of 2.0 or better in all Physics/Astronomy courses.](#)

Code	Title	Credits
Physics Core Courses		
MATH 251–253 or MATH 261–263	Calculus I-III Calculus with Theory I-III	12
MATH 256	Introduction to Differential Equations	4
MATH 281–282	Several-Variable Calculus I-II	8
PHYS 251–253	Foundations of Physics I	12
PHYS 290	Foundations of Physics Laboratory ¹	2
PHYS 351–353	Foundations of Physics II	12
PHYS 391	Physics Experimentation Data Analysis Laboratory	4
Interdisciplinary Science Core		
Two from the following: ²		8

CH 221	General Chemistry I	
CH 222	General Chemistry II	
CH 224H	Advanced General Chemistry I	
CH 225H	Advanced General Chemistry II	
BI 211	General Biology I: Cells	
BI 212	General Biology II: Organisms	
BI 213	General Biology III: Ecology and Evolution	
CS 210	Computer Science I	
CS 211	Computer Science II	
CS 212	Computer Science III	
ERTH 201	Dynamic Planet Earth	
HPHY 212	Scientific Investigation in Physiology	
Astronomy or Physics Upper-Division Courses ³		30
Total Credits		92

¹ To be repeated, totaling 2 credits.

² Students are strongly urged to complete this requirement in the first two years.

³ Students must complete a minimum of 6 credits in upper-division laboratory courses from any combination of PHYS 401, 424, 425, 431, 432, 481, 491, 492, and 493. A maximum of 12 credits from these courses may count toward the major.

Honors

To be recommended by the faculty for graduation with honors in physics, a student must complete at least 46 credits in upper-division physics courses, of which at least 40 credits must be taken for letter grades, and earn at least a 3.50 grade point average in these courses.

As an alternative, undergraduate research leading to the defense of a thesis accompanied by at least a 3.30 grade point average can lead to recommendation for graduation with honors. Contact the director of undergraduate studies for more information.

Four-Year Degree Plan

Bachelor of Arts in Physics

Course	Title	Credits	Milestones
First Year			
Fall			
PHYS 251 or PHYS 201	Foundations of Physics I or General Physics	4	
PHYS 290	Foundations of Physics Laboratory	1	
CH 221	General Chemistry I	4	
MATH 251 or MATH 111Z or MATH 112Z	Calculus I or Precalculus I: Functions or Precalculus II: Trigonometry	4	
WR 121Z	Composition I	4	
Credits		17	

Winter

PHYS 252	Foundations of Physics I	4
or	or Calculus I	
MATH 251	or Precalculus II: Trigonometry	
or		
MATH 112Z		

PHYS 290	Foundations of Physics Laboratory	1
CH 222	General Chemistry II	4
MATH 252	Calculus II	4
WR 122Z	Composition II	4

Credits **17**

Spring

PHYS 253	Foundations of Physics I	4
or	or Calculus I
