Bill Cresko, Executive Director for the Data Science Initiative

541-346-4779

At the UO, Data Science students and faculty harness the power of data to unravel mysteries, predict trends and drive impactful change. Students have access to state-of-the-art facilities and resources, including high-performance computing clusters and extensive datasets, enabling them to explore and analyze real-world problems across diverse domains. Through collaboration with industry and academic partners, the Data Science Program fosters a vibrant and dynamic learning environment, preparing students for a successful career in data science.

Undergraduate Program

Major - Bachelor's Degree

- Data Science (BA/BS) (https://catalog.uoregon.edu/arts-sciences/school-computer-data-sciences/data-science/ug-data-science/)
