School of Computer and Data Sciences

At the School of Computer and Data Sciences (https://scds.uoregon.edu/), students and faculty work to advance knowledge in computer and data science, train the next generation of scholars, and engage with the wider world to tackle interdisciplinary challenges. The new school, housed within the College of Arts and Sciences, offers courses to all UO students. The school engages in cutting-edge research, experiential learning, and interdisciplinary collaborations, preparing students for the ever-evolving world of technology and data-driven fields.
