Environmental Studies crosses the boundaries of traditional disciplines in the natural sciences, social sciences, humanities, management, policy, design, and law. It challenges students to look at the relationship between humans and their environment from new perspectives.
The Environmental Studies Program is dedicated to gaining greater understanding of the natural world from an ecological perspective; devising policies and behaviors that address contemporary environmental problems; and promoting a rethinking of basic cultural premises, ways of structuring knowledge, and the root metaphors of contemporary society.

Faculty

With 22 core faculty from three colleges and 13 different departments, the Environmental Studies Program is doing exciting boundary-breaking interdisciplinary research and teaching related to the environment. In addition, over 100 faculty from all UO colleges who have environmental expertise are affiliated with Environmental Studies as participating faculty. Profiles for core faculty and a list of participating faculty are on the Environmental Studies website.

Stacy Alaimo, professor (material ecocriticism, anthropocene feminisms, blue humanities).

Adell Amos, professor of law (water law, federal administrative law, environmental conflict resolution, and oregon water law and policy).

Lillian Aoki, assistant professor (coastal ecology, ecological resilience, ecosystem restoration).

Peg Boulay, teaching professor (environmental monitoring, wildlife conservation, outreach and education); co-director, environmental leadership.

Mark Carey, professor (glaciers, climate change, natural disasters).

Ashley Cordes, assistant professor (Indigenous studies, digital humanities)

Lauren Hallett, assistant professor (plant community and restoration ecology).

Leigh Johnson, associate professor (climate change and environmental risk, political ecology, finance, development studies, east Africa, labor, firefighting).

Stephanie LeMenager, professor (19th century american literary studies, environmental humanities, postmodern and contemporary literary studies).

Melissa Lucash, assistant professor (forest ecology, climate change, wildfire, spatial modeling, landscape ecology).

Kathryn Lynch, distinguished teaching professor (environmental education, environmental anthropology); co-director, environmental leadership.

Richard D. Margerum, associate professor (collaborative environmental management, conflict management in multistakeholder processes).

Erin Moore, associate professor (life-cycle environmental impacts), assistant director of environmental studies program.

Nicolae Morar, associate professor (applied ethics, recent continental philosophy, philosophy of biology)

Barbara Muraca, assistant professor (human-nature relationships, ecosystem services valuation, sustainability theory).

Alexandra Rempel, assistant professor (environmental design, passive heating and cooling), director of graduate studies.

Joshua J. Roering, associate professor (geomorphology, landscape evolution modeling).

Kory Russel, assistant professor (sustainable design; water, public health, and environment).

Emily Scott, assistant professor (art and the public sphere, critical approaches to the built environment, visual cultures of nature).

Lucas Silva, assistant professor (terrestrial ecology, biogeochemistry, biogeography).

Sarah Stapleton, associate professor (climate change education, science and environmental education, food and schools, participatory research).

Amanda Stasiewicz, assistant professor (human dimensions of wildfire, community and organizational adaptation to hazards, cooperative fire risk management, evacuation and alternatives to evacuation, forest and rangeland policy, qualitative and quantitative social science).

Sarah Wald, associate professor (race and ethnic studies, environmental humanities).

Peter A. Walker, professor (environmental politics, political ecology).

Marsha Weisiger, associate professor (environmental, native american, american west).

Richard York, associate professor (assessing anthropogenic driving forces of global environmental change); director, environmental studies program.

Emeritus

Scott D. Bridgham, professor (ecosystem ecology, climate change).

Trudy Ann Cameron, professor (environmental economics).

Alan Dickman, professor emeritus (forest ecology and management).

Matthew Dennis, professor (colonial and early national america, american cultural and environmental history, american indian history).

Patricia McDowell, professor (river management and restoration).

Ronald Mitchell, professor (environmental politics, international relations).

Undergraduate Programs

Majors - Bachelor's Degree

- Environmental Science (BA/BS) (https://catalog.uoregon.edu/arts-sciences/social-sciences/environmental-studies/ug-env-science/)
- Environmental Studies (BA/BS) (https://catalog.uoregon.edu/arts-sciences/social-sciences/environmental-studies/ug-env-studies/)

Minors

- Environmental Humanities (https://catalog.uoregon.edu/arts-sciences/social-sciences/environmental-studies/min-env-humanities/)
- Environmental Studies (https://catalog.uoregon.edu/arts-sciences/social-sciences/environmental-studies/min-env-studies/)

Graduate Programs

Major - Master's Degree

- Environmental Studies (MA/MS) (https://catalog.uoregon.edu/arts-sciences/social-sciences/environmental-studies/mas-env-studies/)

Major - Doctoral Degree

- Environmental Sciences, Studies, and Policy (PhD) (https://catalog.uoregon.edu/arts-sciences/social-sciences/environmental-studies/phd-env-sci-policy/)

Certificate

- Environmental Humanities (https://catalog.uoregon.edu/arts-sciences/social-sciences/environmental-studies/gcert-env-humanities/)
