Art and Technology Minor

The minor in Art and Technology is an interdisciplinary endeavor, drawing on the expertise of faculty in the areas of Art and Technology, Computer and Information Science, Journalism, and Music. Students in the minor will receive an introduction to the possibilities available to students with a background in interdisciplinary multimedia studies. Courses offered in the minor will cover design, programming, writing and composing for a variety of different applications.

Art & Technology Minor Requirements

The minor requires 28 credits. Courses must be taken for letter grades and passed with a C– or better or a P* where Pass/No Pass is the only grading option for the course. No transfer work can be applied to the minor. The three core courses must be completed before registering for other courses required for the minor.
