# Biology (MS)

https://internship.uoregon.edu/ 541-346-2120

The Knight Campus Graduate Internship Program (KCGIP (https://internship.uoregon.edu/)) is an accelerated master's program with five focus areas that combines lab and lecture content with a 9-month paid internship. We train students to be successful in the fast-paced, team-driven environment typical of the industrial or government lab setting.

## Bioinformatics and Genomics

Our accelerated bioinformatics master's program brings together learners from diverse scientific backgrounds into a cohort-based learning model that will fast track you from classroom to career. Learn how to apply algorithmic logic, statistical methods, and biological concepts within a team, while honing your professional skills during your first 9 months in our fast-paced, immersive training program. Next, apply your skills in the real-world during your paid, 9-month internship. By graduation, you will have relevant work experience, a foot in the door, and a professional network of alumni and program staff to support you.

## Biology: Bioinformatics and Genomics Track

| Code | Title | Credits |
|---|---|---|
| Required Coursework | | 30 |
| Optional Electives | | 1-8 |
| Internship | | 30 |
| **Total Credits** | | **60-68** |
